

Starting **April 1, 2025**, Zelle will be retiring its standalone app. As a result, **members will no longer be able to use their PSCU accounts for Zelle transactions** until further notice.

Zelle is moving to a new model that requires direct integration with financial institutions' online banking platforms. We are actively working with **Visifi and Velera** to bring Zelle back to PSCU as soon as possible, but due to the certification process, we expect it to be available in the **third quarter of 2025**.

**In the meantime, here are some great alternatives for sending money:**

- ✓ **Bill Pay** – Send money securely to trusted recipients.
- ✓ **ACH Transfers** – Transfer money between your PSCU account and another financial institution. If your other bank or credit union supports external ACH transfers, you can also transfer funds into your PSCU account.
- ✓ **Venmo, PayPal, or other P2P apps** – Link your PSCU account for easy transactions.

We know this may be an inconvenience, and we truly appreciate your patience as we work on a seamless transition. We'll keep you posted with updates throughout the year.
